

AD-4786 OMNI-DIRECTIONAL ANTENNA 3 dB GAIN

This omni-directional antenna is a perfect match for TV transmitters in UHF band. This antenna covers frequency range from 470 MHz - 860 MHz. AD-4786 antenna has 3 dB gain and 50 ohms impedance. It comes with an integral N-connector..

Technical Specifications	
Operating Frequency:	470-860 MHz
Impedance:	50 ohms
Temperature Range:	-40 +85* C
Diameter:	0.4"
Polarization:	Vertical
Connector:	Integral N – female
Max. input power:	50 W
Weight:	0.46 lbs.
VSWR:	< 1.5:1 avg.
Gain:	6 dBi
Length:	23.6"
Radome material:	White fiber glass
Mounting:	31.7 mm to 50.8 mm dia.
Rated wind velocity:	108 MPH
